STEP INTO THE ARCTIC WITH LOCAL JOHN WIGGLESWORTH

THE PRESENT STATE AND ONGOING TRANSFORMATION
OF THE ARCTIC OCEAN SYSTEM.

John Wigglesworth will share the story of his recent trip to the North Pole at a presentation at Gathr on March 30th. During the fall of 2022, Wiggs joined the team from the Woods Hole Oceanographic Institution (WHOI) on a 2-month research cruise to the North Pole on the USCG Cutter Healy. Through pictures, Wiggs will tell the story of the trip and his experience with the science, the ship operations, the ice and the awe of standing on the top of the world.
